- The new management software package called Vantaca is in process of setup. We anticipate its completed launch by mid January. Residents will be notified once it has been made available to your association.
- Due to the accounting software change over, no interest or late fees will be assessed during the month of January.
- To stay up to date with the latest information about your association, we encourage you to register on your HOA website so that we can add you to the email distribution list. If you require any assistance, please contact Customer Service at customerservice@Evergreen-LM.com or 877-221-6919.
